

Partno: 100-07-203

Fuel rail assembly for LS1 type

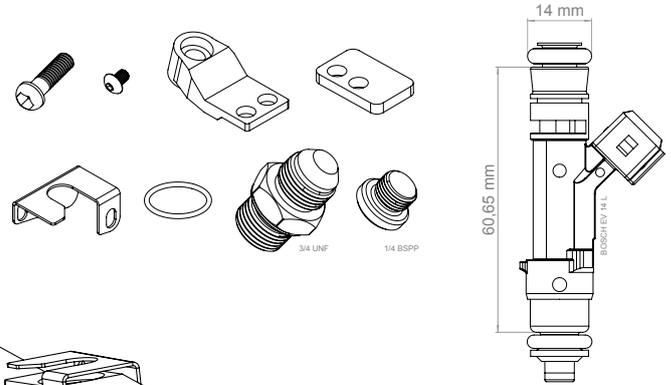

- ✔ **MOTORSPORT USE** Safe for all kind of motorsports use
- ✔ **E-85 PROOF** Handles all kind of alcoholic fuels such as E85
- ✔ **SAFETY CLIPS** Equipped with safety clips for safe installation

ASSEMBLY INSTRUCTIONS : When installing the injectors with the injector safety clips, make sure to not tighten the clip screws until after you have attached the fuel rail to the inlet. The safety clips are for locking the injectors safely and steadily, not for controlling them in to the correct position.

MAKE SURE TO : Always pressurize the installation before starting the engine for the first time to ensure that the assembly has been carried out correctly and that all connections are sufficiently tightened. Always use lubricant when tightening fittings and be sure to tighten the screws properly.

MORE INFORMATION : If you need assistance with installation, contact us directly or your nearest / local distributor or dealer for advice.

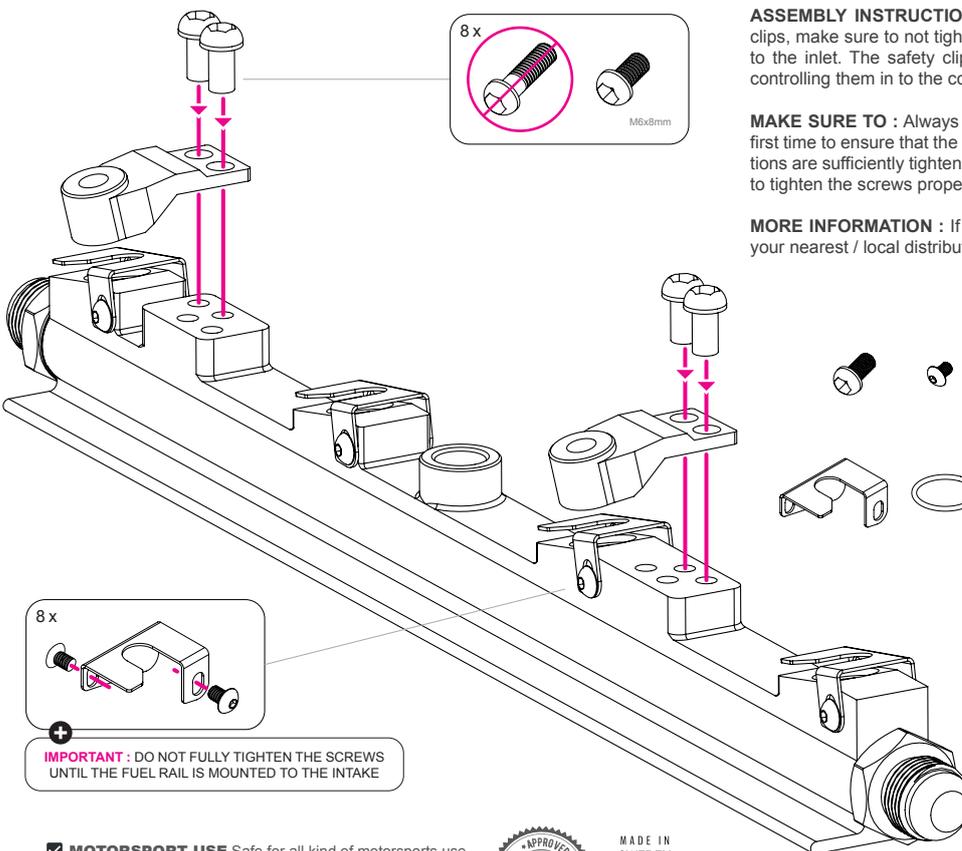

EN THIS PRODUCT MAY HARM YOUR ENGINE OR VEHICLE IF NOT INSTALLED CORRECTLY. PLEASE CONTACT YOUR LOCAL RETAILER BEFORE INSTALLATION.

DE DIESES PRODUKT KANN BEI UNSACHGEMÄßER INSTALLATION SCHADEN AN MOTOR ODER FAHRZEUG VERURSACHEN. BITTE KONTAKTIEREN SIE VOR DEM EINBAU IHREN VERTRIEBSPARTNER VOR ORT.
